

Create an image slider of the Avengers using the following layout:

[Elements]

- Avengers avenue (Plain text)
- Image (Plain image)
- Left and right controls (Clickable)

[Minimum requirements]

- You can choose any CSS styles for the following parameters:
 - Font style, color, weight etc. of your choice
 - The size of the slider (width and height)
- Images must slide automatically with a delay of 1000 ms.
- When a user clicks the right arrow control, the next image must appear. If there is no next image, do nothing.
- When a user clicks the left arrow control, the previous image must appear. If there is no previous image, do nothing.
- **You are required to use pure javascript (No slider plugins allowed).**

[Additional points]

Ensure that the UI is aesthetically pleasing to gain extra points.
